

ACM Transactions on Cyber-Physical Systems Received Its First Impact Factor

We are delighted to announce that *ACM Transactions on Cyber-Physical Systems* received its first Impact Factor in the latest Journal Citation Reports release from Clarivate Analytics. Its 2022 IF is 2.3.

ACM Transactions on Cyber-Physical Systems (TCPS) is the premier journal for the publication of high-quality original research papers and survey papers that have scientific and technological understanding of the interactions of information processing, networking and physical processes. TCPS covers the following topics:

- Computation Abstractions
- System Modeling and Languages
- System Compositionality and Integration
- Design Automation and Tool Chains
- Trustworthy System Designs
- Resilient and Robust System Designs
- Human in the Loop

The application domains covered by TCPS include, but are not limited to: Healthcare, Transportation, Automotive, Avionics, Energy, Living Space, and Robotics.

Notable Papers:

[System-level Logical Execution Time: Augmenting the Logical Execution Time Paradigm for Distributed Real-time Automotive Software](#)

[Offline and Online Learning of Signal Temporal Logic Formulae Using Decision Trees](#)

[Dynamic Bicycle Dispatching of Dockless Public Bicycle-sharing Systems Using Multi-objective Reinforcement Learning](#)

[Meta-Learning to Improve Unsupervised Intrusion Detection in Cyber-Physical Systems](#)

[Extending Isolation Forest for Anomaly Detection in Big Data via K-Means](#)

[TPrune: Efficient Transformer Pruning for Mobile Devices](#)

To submit your manuscript to TCPS, visit dl.acm.org/journal/tcps/author-guidelines.

Why Publish with ACM

- **Maximize the exposure of your work** - Your article will be available in the [ACM Digital Library](#), the most comprehensive database of computing literature in the world.
- **Allow your colleagues to read your work for free** - ACM's [Author-Izer](#) link enables free downloads of the definitive version of your work in the ACM Digital Library to your own homepage or your institutional repository.

- **Promote your work with [Kudos](#)** - After your paper has been accepted and uploaded to the ACM Digital Library, you'll receive an invitation from Kudos to create a free account and add a plain-language description.
- **Enjoy liberal author rights policies** - ACM allows for [posting on institutional repositories, as well as on noncommercial preprint servers](#) such as ArXiv.
